TABLE 23. Census-farms — value of agricultural products sold, 1965,(1) by province

Note: The figures reported in this table were collected primarily for purposes of farm classification but are being published because of their usefulness for studies at the county or census division level. They differ from the cash income figures published by the Agriculture Division, DBS, and the user should exercise caution when using them. See "Introduction".

An X indicates that figures are withheld to avoid disclosing individual operations but these are included in the total.
